Crescent Custom Yachts - Combining talent, skill & desire

Crescent's 'Nectar of the Gods'.

Now in its second decade Crescent Custom Yachts is one of the world's premier megayacht builders. Under the guidance of its founder, Jack Charles, Crescent has built an international reputation for excellence in design, operation and reliability. It is one of a few shipyards in the world to have created a variety of custom megayachts that meet the demanding requirements of MCA, ABS, Bureau Veritas and French Affaire Maritime.

With the completion of 'Nectar of the Gods', a 121 ft. tri-deck, Crescent was the first yard in North America to build an MCA certified fiberglass yacht. Last year Crescent's 'Valkyrie', a 120 ft. raised pilot house superyacht was nominated by ShowBoat International Magazine as 'best in class'.

The Crescent complex on Mitchell Island near Vancouver, Canada covers some 17 acres and features a 45,000 sq. ft., state-of-the-art, manufacturing facility that is capable of producing yachts up to 165 ft. LOA. Crescent utilize the innovative Janicki mold system designed by Naval Architect, Jack Sarin, which can be readily expanded from 110 to 130 ft. In addition the shipyard provides expert repair and refit services and is the only facility of its kind in Western Canada.
